Subject: RE: Chamber of Commerce

No problem Gino- Still going through the comments, but in the interim, here is the list of commenters below, including some familiar names and authors of RE cited studies. I imagine the Blake, Paustenbach and Dement comments are of particular interest (among others) so have attached those. I can send the full comments of any others along—all of them in fact that aren't viewable publicly yet. Copying Jay, Kevin, Leonid and Tom.

Robert:

Thanks...I had heard about the letter, thanks for sending on.

I am on the docket website now and see that nothing has been posted since June 1, so I am glad you are able to access the ones before they go up.

I might send a note to Diana Wong to see what was given to the SACC members in terms of comments.

Hi All- I wanted to send the letter from the **Ex 6 - Personal Privacy** some of the SACC members. I am still going through the comments ~67 actual unique comments, many from consultants involved in asbestos exposure civil litigation related to brakes. Several are also from the authors of studies that are cited in the RE and very technical in nature.
